

JAKE LOCKITCH

2nd year BSc in Computer Science

S T U D E N T

PROFILE

My name is Jake Lockitch, I was born and raised in Cape Town, South Africa on the 19th March 2003. My favourite subjects at school were mathematics, physics and IT. I always enjoyed the hands on practical subjects and love problem solving. I flourish best when I have a good balance between academic stimulation, sports, music and socializing with friends. For relaxation I enjoy playing the piano and listening to and making music.
